We want to ensure that all of our pupils have a rounded education and lives which are rich in **experience**.

By using the Aldridge Attributes of Problem Solving, Risk Taking, Creativity, Determination, Passion and Teamwork, we know that our pupils are able to **succeed**.

A clear sense of the importance of **social conscience** permeates throughout all of the above attributes, helping our pupils to achieve their full potential and to **shape their own future**.

See how many of our experience activities you can tick off throughout the year!

SOCIAL CONSCIENCE

Be aware,
show you care
